1. Double click on the iPass_Win to open the exe popup and click on Run

Open File - Security Warning						
Do you want to run this file?						
18	Name: C:\downloads\iPass_Win.msi Publisher: <u>IPass Inc.</u> Type: Windows Installer Package From: C:\downloads\iPass_Win.msi					
🔽 Alwa	Run Cancel					
۲	While files from the Internet can be useful, this file type can potentially harm your computer. Only run software from publishers you trust. What's the risk?					

6. Click "Next"

7. Click Next -> Next and click on the Install button and the app will be installed.

ট iPass - InstallShield Wizard

InstallShield		
	< Back Next >	Cancel

8. When the Installation is successful, the app will open the Windows client screen below, with all the nearest Wi-Fi networks displayed. It will show also the supported iPass networks. You can choose any iPass supported network and connect with it. There is a Disconnect button shown, which allows you to sever the connection to any connected Wi-Fi network.
